

# NYALIC<sup>®</sup>

Clear Surface Protectant

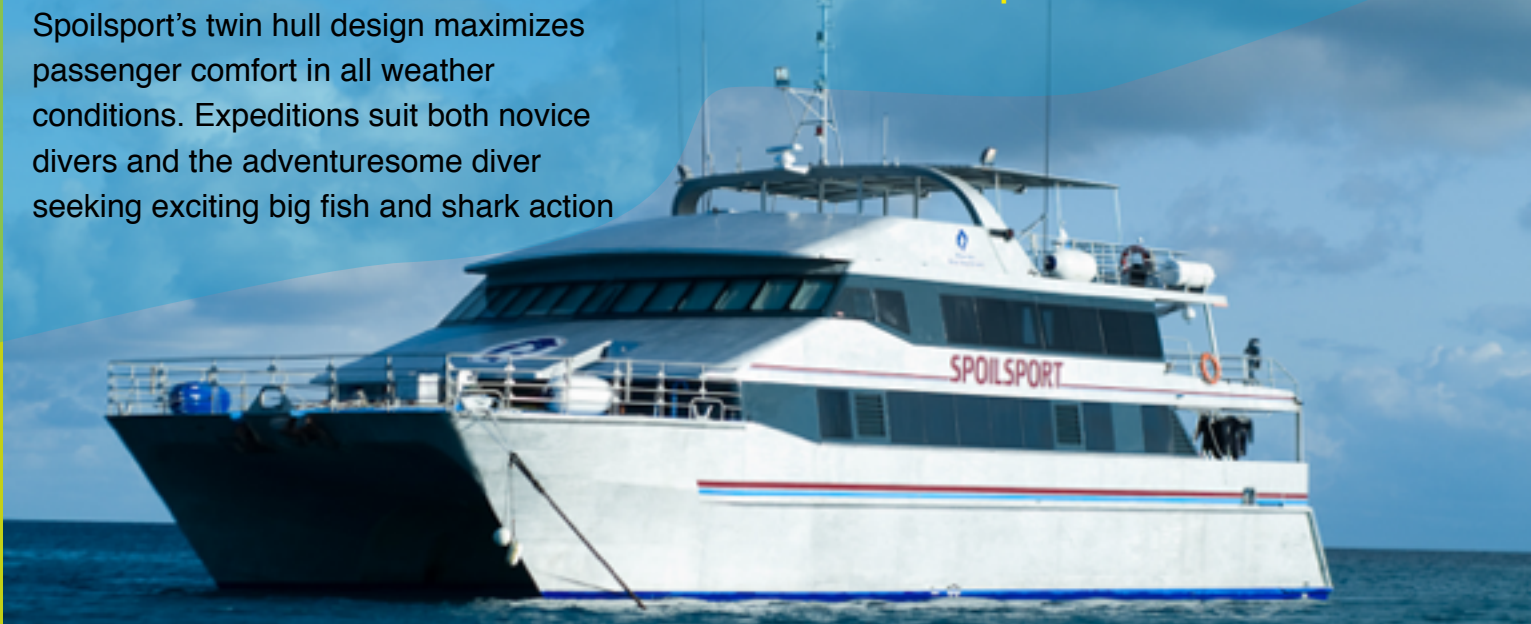

at work again in

## FISHY BUSINESS

Since 1969 Mike Ball has been setting standards in the Australian dive industry with exceptional live-aboard expeditions to the Great Barrier Reef and Coral Sea. SpoilSport's twin hull design maximizes passenger comfort in all weather conditions. Expeditions suit both novice divers and the adventuresome diver seeking exciting big fish and shark action

It is attention to detail that sets Mike Ball Dive Expedition apart. Mike Ball Dive Expeditions makes world class diving a world-class experience and... **they chose Nyalic<sup>®</sup> for their vessel corrosion protection.**

SpoilSport is a 30 M vessel built of aluminium. She operates extended overnight charters with 29 Pax - 10 crew to the Great Barrier Reef.

SpoilSport is acid washed raw aluminium, her Nyalic<sup>®</sup> coated surface protects the hull and topsides keeping her pristine in hot saline conditions, a perfect coating for a marine park
