Mr John Fielding
Nyalic NZ Ltd
P O Box 6138
Dunedin

Dear John

As discussed, we would like to give you some feedback on our experience with your product.

We have been using the Nyalic product for some 6 years to protect the alloy bins on our truck fleet.

Some time ago we took the opportunity to lower the tare weight of our units and at the same time upgrade our fleet image. The Nyalic finish formed part of this process.

We are pleased to report that our experience with the product has been successful in the following key areas:

- No oxidizing or aging of the alloy
- Improved efficiency of cleaning in terms of time taken and ease to remove grime
- Most importantly, following a wash the alloy returns to a 'like new' polished finish

We would also like to acknowledge your product support/knowledge and time taken to introduce us to Nyalic.

Regards

A handwritten signature in blue ink, appearing to read "Bret Highsted", is written over the typed name.
