

NYALIC®

MARINE

Harbour Jet, Sydney's Award Winning Tourist company choose Nyalic® for marine protection.

When you operate Australia's most popular tourist ride, your equipment and its maintenance are keys to good business.

With Nyalic® as the super-coating on surfaces, including the jet units - Harbour Jet now spend less time on detailing and more time serving their customers.

Harbour Jet offer quality presentation to the tourist who wants thrills in a limited time....

Nyalic® used to protect void spaces and the Yanmar engine pit.

It shines

Harbour Jet Engineering Manager, Troy Thompson says Nyalic® is a brilliant coating for keeping his equipment looking great. "Our equipment must look and be the best all the time" he said.

As commercial vessels, all equipment must be to Waterways Standards and to be an Award Winning company, Harbour Jet also know their customers expect the best on their adventure.

To Harbour Jet, presentation is everything so when in Sydney check it out, go "for the Ride of your Life".
